

I am 1 of many of americas truckers who rely on xm traffic to deliver the freight i have on my truck so cunsumers like you have what they want when they want it. also with the new hours of service those channels help me plan my trip better to make the most of my drive time so there is no delay in the product that YOU use on a daily basis just remember "IF YOU GOT IT A TRUCK BROUGHT IT" THANKS for your time STANTON L HIVELY
